Good afternoon !

We have a new team member joining the Permian sequestration team and she will lead the effort of the strat well. She has a conflict at 11:30 that she cannot reschedule. Would it be possible to move our meeting at 12 PM instead ?

Thank you!

Caroline

That's because I apparently haven't had enough coffee yet and completely left you off! Apologies, I just sent it to you.

I have not yet received the invite. My SPAM folder is not showing anything yet.

Thank you

Let's plan for Thursday at 11:30AM if OK with everyone.  
Thank you for the quick response.

**Subject:** TX0005 Oxy Brown Pelican - Strat Well

Good morning,

We are getting ready to drill Oxy Brown Pelican strat well in the next few months as we secured rig and material. Brown Pelican project is surrounded by oil and gas operations in Permian with various cores, logs and other data that allowed OXY to propose a secure site. The purpose of the strat well is to gain AOR site specific data.

We would like to meet with you next week, if possible, to ensure that OXY provides all needed information with the strat well.

This is a key site for OXY as it is associated with DAC1 project.

Thank you !

Caroline
